

MEASUREMENT CONTROLS, INC.

D I A P H R A G M M E T E R S

Proof...Precision...Performance

Measurement Controls, Inc. provides remanufacturing, spud conversion, or TC conversion and calibration services for diaphragm meters from 110 to 10,000 cfm capacity with customizable processing levels as per ANSI standards to many gas utilities in the US. Our standards such as Bell Provers, Sonic Nozzle Provers, Transfer Provers, or Turbine test line are correlated and traceable to N.I.S.T. Meters are calibrated at several test points
